Jack Martin-Secret Service-office space

Like the Secret Service and the FBI and Warren Commission he so closely copies, Epstein elected to lie about and defame Jack Martin, which is not easily accomplished.

This almost-illegible copy of a Secret Service report shows what Martin told me, that he had arranged for the office space for the CIA-fronting and financed CRC and its New Orleans head, Arcacha. This is an address Oswald used on his literature (how much more "pro-Castro could he be then to direct sympathizers to these vengeance-seekers?). The boys played with short-wave radio, too. With only a book-length article of 25,000 words, Epstein had no space for this kind of documentation, any more than his friends on the Warren Commission did. They had only 900 pages in their Report.
